Rick Mazur, President & CEO stated, *"This is an exciting Canadian uranium discovery in the Thelon Basin, a geologic equivalent of the prolific Athabasca Basin. We are currently mobilizing materials and will be building the camp later in the month in advance of our \$10 million summer drill campaign beginning in June. We are very excited to get started on this summer program where we will be mainly focussed on the Tatiggaq deposit which is adjacent to Orano's 133 million pound Kiggavik uranium development project."*

Technical meetings with management and partnering inquiries on Forum's portfolio of uranium and energy metals projects in Saskatchewan, Nunavut and Idaho can be arranged by contacting: **Rick Mazur, President & CEO** at mazur@forumenergymetals.com or by calling **604-630-1585**.

About Forum Energy Metals

Forum Energy Metals Corp. (TSX.V: FMC; OTCQB: FDCFF) is focused on the discovery of high grade unconformity-related uranium deposits in the Athabasca Basin, Saskatchewan and the Thelon Basin, Nunavut.
