### 1. Nature of Operations and Going Concern

Forum Energy Metals Corp. ("Forum "or "the Company") is a publicly traded company incorporated under the laws of the Province of British Columbia. The Company's shares are listed on the TSX Venture Exchange ("TSX-V") and trade under the symbol FMC and on the OTCQB Venture Market in the United States under the symbol FDCFF. The head office is located at Suite 615, 800 West Pender Street, Vancouver, British Columbia, V6C 2V6 and the registered and records office of the Company is located at Suite 1500, 1055 West Georgia Street, Vancouver, British Columbia V6E 4N7.

The Company is engaged in the business of evaluating, and if deemed appropriate, acquiring and exploring natural resource properties. The Company presently has no proven or probable reserves and on the basis of information to date, it has not yet determined whether its properties contain economically recoverable ore reserves. The Company has not generated any revenues from its operations to date and consequently is considered to be in the exploration stage. The amounts shown as exploration and evaluation assets represent deferred acquisition costs incurred to date, less amounts written off, and do not necessarily represent present or future values. The recoverability of the carrying amounts for exploration and evaluation assets is dependent upon the Company raising capital, the sale or entering into a joint venture of the Company's exploration and evaluation assets, and/or the attainment of profitable operations.

These condensed interim consolidated financial statements have been prepared on the basis that the Company will continue as a going concern, which assumes that the Company will be able to meet its commitments, continue operations and realize its assets and discharge its liabilities in the normal course of operations for the foreseeable future. At May 31, 2023, the Company has working capital of \$2,274,552 (which amount includes \$1,272,201 restricted for flow-through purposes, resulting in an unrestricted working capital of \$1,002,351). Management estimates that its working capital may not provide the Company with sufficient financial resources to carry out currently planned operations and exploration through the next twelve months. Additional financing will be required by the Company to complete its strategic objectives and continue as a going concern. While the Company has been successful in the past in obtaining financing, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be on terms acceptable to the Company. These material uncertainties may cast significant doubt upon the Company's ability to continue as a going concern.

These consolidated financial statements do not reflect adjustments that would be necessary if the going concern assumption were not appropriate.

Since March 2020, several governmental measures have been implemented in Canada and the rest of the world in response to the coronavirus (COVID-19) pandemic. While the impact of COVID-19 and these measures are expected to be temporary, the current circumstances are dynamic and the impacts of COVID-19 on the Company's business operations cannot be reasonably estimated at this time. The Company anticipates this could have an adverse impact on its business, results of operations, financial position and cash flows in fiscal 2023. The Company continues to operate its business, and in response to Canadian Federal and Provincial, and US Federal and State emergency measures, has requested its employees and consultants work remotely wherever possible. These government measures, which could include government mandated closures of the Company or its contractors, could impact the Company's ability to conduct its exploration programs in a timely manner, and the Company is evaluating the best way to move its exploration activities forward when the emergency measures are lifted.

For the six months ended May 31, 2023

(Unaudited - Expressed in Canadian Dollars)

### 2. Basis of Preparation

### **Statement of Compliance**

These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34 Interim Financial Reporting using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board and the International Financial Reporting Interpretations Committee.

These condensed interim consolidated financial statements do not include all of the disclosures required for annual financial statements, and therefore should be read in conjunction with the audited consolidated financial statements for the year ended November 30, 2022.

#### **Basis of measurement**

These condensed interim consolidated financial statements have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit or loss, which are stated at their fair value. In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information. The significant accounting policies, as disclosed, have been applied consistently to all periods presented in these financial statements.

### Functional and presentation currency

These condensed interim consolidated financial statements are presented in Canadian dollars, which is the parent company's functional currency as well as the functional currency of its subsidiaries.

#### Critical accounting estimates and judgments

The preparation of these condensed interim consolidated financial statements in conformity with IFRS requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported expenses during the period. Actual results could differ from these estimates.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the end of the reporting period, that could result in a material adjustment to the carrying amounts of assets and liabilities in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

#### i) Critical accounting estimates

Critical accounting estimates are estimates and assumptions made by management that may result in a material adjustment to the carrying amount of assets and liabilities within the next financial year and are, but are not limited to, the following:

#### <u>Carrying value and recoverability of exploration and evaluation assets</u>

Management has determined that acquisition costs incurred which were capitalized may have future economic benefits and may be economically recoverable. Management uses several criteria in its assessments of economic recoverability and probability of future economic benefits including geologic and other technical information, preliminary economic assessment, accessibility of facilities and existing permits.

(Unaudited - Expressed in Canadian Dollars)

### 2. Basis of Preparation (continued)

#### **Critical accounting estimates and judgments (continued)**

i) Critical accounting estimates (continued)

#### Share-based compensation

The fair value of stock options issued are subject to the limitation of the Black-Scholes option pricing model which incorporates market data and which involves uncertainty and subjectivity in estimates used by management in the assumptions. Because the Black-Scholes option pricing model requires the input of highly subjective assumptions, including the volatility of share price, changes in the subjective input assumptions can materially affect the fair value estimate.

#### Recovery of deferred tax assets

Judgment is required in determining whether deferred tax assets are recognized in the statement of financial position. Deferred tax assets, including those arising from unutilized tax losses, require management to assess the likelihood that the Company will generate taxable earnings in future periods, in order to utilize recognized deferred tax assets. Estimates of future taxable income are based on forecasted cash flows from operations and the application of existing tax laws in each jurisdiction. To the extent that future cash flows and taxable income differ significantly from estimates, the ability of the Company to realize the net deferred tax assets recorded at the date of the consolidated statements of financial position could be impacted.

Additionally, future changes in tax laws in the jurisdictions in which the Company operates could limit the ability of the Company to obtain tax deductions in future periods.

The Company has not recorded any deferred tax assets.

#### ii) Critical accounting judgments

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements are, but are not limited to, the following:

#### <u>Determination of functional currency</u>

The functional currency for each of the Company's subsidiaries is the currency of the primary economic environment in which the entity operates. Management has determined that the functional currency of the parent Company as well as the functional currency of the Company's US subsidiaries is the Canadian dollar.

### **Notes to the Condensed Interim Consolidated Financial Statements**

(Unaudited - Expressed in Canadian Dollars)

### 3. Significant Accounting Policies

The accounting policies applied by the Company in these condensed interim consolidated financial statements are the same as those applied by the Company as at and for the year ended November 30, 2022.

#### New accounting standards not yet adopted

A number of new standards, amendments to standards and interpretations are not yet effective as of May 31, 2023 and have not been applied in preparing these consolidated financial statements. In addition, none of these standards are applicable to the Company.

#### 4. Cash

#### Saskatchewan Projects

Grease River

On February 3, 2023, the Company entered into an option agreement with Traction Uranium Corp. ("Traction") whereby Traction can earn a 100% interest in the Grease River project.

The agreement is a staged earn-in as follows:

- 51% interest
  - o payment of \$25,000 cash on or before February 10, 2023 (received in February 2023 and first credited against the acquisition costs for \$6,318, with the remainder of \$18,682 recorded as exploration and evaluation recoveries on the statement of loss and comprehensive loss for the six months ended May 31, 2023);
  - o payment of a further \$50,000 cash on or before December 31, 2023;
  - o payment of a further \$75,000 cash on or before December 31, 2024;
  - o payment of a further \$100,000 cash on or before December 31, 2025;
  - o 125,000 Traction shares on or before March 1, 2023 (received in March 2023, valued at \$50,625 and recorded as exploration and evaluation recoveries on the statement of loss and comprehensive loss for the six months ended May 31, 2023);
  - o a further 250,000 Traction shares on or before December 31, 2023;
  - o a further 500,000 Traction shares on or before December 31, 2024;
  - o a further 750,000 Traction shares on or before December 31, 2025;
  - o completing \$500,000 in exploration expenditures by December 31, 2023;
  - o completing a further \$1,000,000 in exploration expenditures by December 31, 2024;
  - o completing a further \$1,500,000 in exploration expenditures by December 31, 2025;
- 19% interest (70% total)
  - o payment of \$200,000 cash on or before December 31, 2026;
  - o payment of a further \$500,000 cash on or before December 31, 2027;
  - o 1,000,000 Traction shares on or before December 31, 2026;
  - o a further 1,500,000 Traction shares on or before December 31, 2027;
  - o completing \$1,500,000 in exploration expenditures by December 31, 2026;

On February 7, 2022, as amended July 21, 2022, the Company entered into an option agreement with Sassy Gold Corp. (formerly Sassy Resources Corporation) ("Sassy") whereby Sassy can earn a 100% interest in the Highrock project. Full disclosure of this agreement is found in Note 7 of the November 30, 2022 consolidated financial statements. During the six months ended May 31, 2023, the Company received 150,000 common shares of Sassy valued at \$25,500 which amount was recorded as exploration and evaluation recoveries on the statement of loss and comprehensive loss for the six months ended May 31, 2023.

Janice Lake

On February 22, 2023, the Company entered into an agreement with Rio Tinto Exploration Canada Inc. ("Rio Tinto") whereby the Company will acquire all of Rio Tinto's interest in the Janice Lake project, giving Forum a 100% interest in the project.

In consideration, the Company is to grant Rio Tinto a 20% back-in right in the project and a 2% NSR royalty capped at \$50,000,000. Rio Tinto may exercise the back-in right at any time up until 180 days following completion of a feasibility study or commencement of commercial production, if a feasibility study has not been completed, by paying Forum an amount equal to all the expenditures incurred by Forum on the project up to the exercise of the back-in right. On exercise of the back-in right, Forum and Rio Tinto will form an 80/20 joint venture for further development of the project. In addition, Forum is to pay Rio Tinto \$500,000 upon the earlier of completion of a preliminary economic assessment, completion of a feasibility study, or commencement of commercial production, and a further \$2,000,000 upon the earlier of completion of a feasibility study or commencement of commercial production.

Rio Tinto's sale of the project to Forum is subject to the project's camp being removed from the site or sold. In satisfaction of this condition, the parties have agreed to extend the First Option Period in the current option agreement to November 30, 2023.

### 13. Segmented Information

The Company operates in one business and two geographical segments being the exploration of mineral properties in Canada and the United States. The total assets attributable to the geographical locations relate primarily to exploration and evaluation assets and have been disclosed in Note 8.

#### 14. Financial Instruments and Financial Risk Management

#### **Financial instruments**

Financial instruments are classified into one of the following categories: fair value through profit or loss ("FVTPL"); fair value through other comprehensive income ("FVTOCI"); or at amortized cost. The carrying values of the Company's financial instruments are classified into the following categories:

		May 31, 2023	November 30, 2022		
Cash	FVTPL	\$ 1,678,995	\$	1,881,274	
Marketable securities	FVTPL	101,503		48,625	
Receivables	Amortized cost	39,051 183,4		183,486	
Due from joint venture partner	Amortized cost	8,247		58,727	
Trade and other payables	Amortized cost	86,073		514,730	

The Company's financial instruments recorded at fair value require disclosure about how the fair value was determined based on significant levels of inputs described in the following hierarchy:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 – Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability; and

Level 3 – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

The carrying values for receivables and trade and other payables, approximate their fair value due to their short-term nature. These financial instruments are classified as financial assets and liabilities at amortized cost and are reported at amortized cost. The carrying value of cash and marketable securities is determined based on Level 1 of the fair value hierarchy.

#### Financial risk management

The Company's risk management objectives and policies are consistent with those disclosed by the Company for the year ended November 30, 2022.
